

**TC 75<sup>ex</sup> Touch Computer**

for hazardous areas Zone 2/Div. 2

## « The toughest device at the hazardous market for Zone 2/Div. 2 with NFC. »

In today's world, it takes the best customer service to earn a sale and repeat business. In order for your front line workers to consistently deliver that level of service, they'll need to execute every task as quickly and efficiently as possible. With a mobile computer in hand, they can. But you need a business-grade device with enterprise-class durability and functionality. While workers inside the four walls and out in the field want a device that is every bit as reined and easy to use as their own personal smartphones and tablets.

### INTRODUCING TC 75<sup>ex</sup> – THE TOUCH COMPUTER THAT HAS IT ALL.

This professional grade device marries the intuitive and elegant smartphone experience with today's most advanced enterprise-class features. Your workers get everything they need to work smarter and faster, able to deliver the kind of service that will put your business a step above the competition. You get a rugged device built to last for years, only Android Mobile Enterprise operating systems, with everything you need to streamline your workflows and maximize your return on investment - from world-class voice and data features to snap-on accessories that let you add new capabilities, when and where you need them.

#### UNIQUE FEATURES

- |                             |                                   |
|-----------------------------|-----------------------------------|
| Extreme rugged              | Integrated scan functionality     |
| Dual Sim Slot               | High quality integrated camera    |
| Exchangeable strong battery | Professional accessory from Zebra |

### LIGHTNING-FAST BARCODE CAPTURE

Zebra-only patented PRZM technology, a megapixel sensor and advanced optics allow your workers to capture barcodes as fast as they can press the scan button.

### CAPTURE BARCODES IN ANY CONDITION WITH OUR ADVANCED DECODE ALGORITHMS

Regardless of your industry, your products are on the move all day, every day. Associates and customers are handling inventory in the retail store. Delivery drivers are moving orders in and out of delivery truck. And field service personnel are constantly stocking and moving the parts and tools inventory in the back of the truck. Damage to the barcode labels on your products is inevitable. But when you choose the TC 75<sup>ex</sup>, you get industry-leading barcode technology that can handle it all— dirty, scratched, smudged and even poorly printed barcodes. The result? Your workers no longer need to manually enter barcode data, saving time and eliminating the opportunity for data entry errors.

### AN EXTRAORDINARY WORKING RANGE AND WIDE FIELD OF VIEW FOR EXCEPTIONAL SCANNING FLEXIBILITY

With a 50 percent increase in scanning range over our prior generation scanner, workers can capture barcodes at near contact to as far as 32 in./81 cm away – making it easy to take inventory and capture barcodes on items in carts in a retail store. Labels with multiple barcodes are no longer a challenge – workers can capture them all with one press of a scan button. And even large barcodes can be captured at close range.

### LET YOUR WORKERS CHANGE INPUT MODES ON THE FLY

Throughout the day, your workers will perform different tasks. Our dual mode capacitive touch display allows workers to choose their preferred pair of data input modes – finger and stylus, or finger and gloved finger – and switch between the two modes on the fly.\* No need to change settings – and users can change pair selection at any time.

\*Glove support and dual mode touch panel are available on Android only.

« The right device for your workers. The right device for your business. »

### BUSINESS TOUGH

The TC 75<sup>ex</sup> gives your workers an edge by combining the amazing ease of use of a consumer device with the no-nonsense durability, dependability and performance that enterprises demand.

### DROP TESTED

Everyday drops are inevitable – the TC 75<sup>ex</sup> is ready to handle them all with its 8 ft./2.4 m Military Standard drop rating or multiple 6 ft./1.8 m to concrete certification.

### TUMBLE TESTED

The TC 75<sup>ex</sup> easily handles the real-world tumbling that often happens after a device is dropped. Even after 2,000 consecutive 3.2 ft./1 m hits in our punishing tumble drum, the TC 75<sup>ex</sup> continues to operate dependably.

### IP 67 SEALING

Dust, spilled beverages and even a drop in a bucket of water are no match for the TC 75<sup>ex</sup>. The device is dust-tight and sealed to handle 30 minutes of complete immersion in water.

### CORNING® GORILLA® GLASS TOUCH PANEL AND SCANNER EXIT WINDOW

Two of the most vulnerable components on any mobile device are fortified with one of the toughest materials available. With Gorilla Glass, our touch panel and scanner exit window can flex when bumped or dropped – instead of shattering or scratching.

### INDUSTRIAL GRADE CONNECTORS

With industrial grade connections, the TC 75<sup>ex</sup> is ready for years of insertions into cradles and connections to cables – unlike consumer grade connectors, which can wear out quickly.

### THE FASTEST WIRELESS CONNECTIONS INSIDE AND OUTSIDE THE FOUR WALLS

From associates in a retail store to delivery drivers on the road, the TC 75<sup>ex</sup> Series keeps your workers connected to the information and people they need to maximize on-the-job efficiency and productivity. TC 75<sup>ex</sup> supports Wi-Fi and cellular for workers out in the field.

### FAST AND DEPENDABLE WI-FI

Inside the four walls, the TC 75<sup>ex</sup>, 802.11a/b/g/n support ensures compatibility with your existing WLAN, while the TC 75<sup>ex</sup> adds 802.11ac for the fastest Wi-Fi connections possible.

### THE WORLD'S FASTEST CELLULAR CONNECTIONS

With 4G LTE support, the TC 75<sup>ex</sup> gives workers anywhere in the world a robust wireless connection on the world's fastest cellular data networks. In addition, The TC 75<sup>ex</sup> supports up to three SIM cards on three different networks, enabling constant connectivity for field personnel who cover large areas or different countries supported by multiple carriers.

### MOBILITY DNA

Every strand of the TC 75<sup>ex</sup> with Android mobility platform is simpler with Zebra's Mobility DNA. That's because, from the start, you get the industry's most comprehensive suite of mobility must-haves to accelerate and simplify your mobility solution. You get more ready-to-use off-the-shelf end-user apps that allow you to start reaping the value of our mobile devices right away. You get robust utilities that make device management and application development easier than ever, driving costs down and the value of the TC 75<sup>ex</sup> up. And you get utilities that allow your workers to capture data more quickly and easily, improving device adoption rates and workforce productivity.
